

Smart Saver Kit for Seniors

What's Inside This Kit

This kit was designed with you in mind-whether you're just starting or want to save more money, stay safe, and simplify life at home. Each section offers step-by-step help, product recommendations, and tools to get you started with confidence.

Step-by-Step Device Setup

- Kasa Smart Plug: Download the Kasa Smart app, plug the device in, and follow the guided setup.
- Google Nest Thermostat: Install using the step-by-step video in the Google Home app or schedule installation help.
- Wyze Smart Bulb: Screw it in like a regular bulb, download the Wyze app, and follow the on-screen instructions.
- Govee Leak Sensor: Place the sensor in key areas (under sinks, near heaters) and connect it using the Govee app.
- Ring Indoor Cam: Plug in the camera, download the Ring app, and connect to Wi-Fi for live monitoring.

Product Links & Rebates

Check your local utility company's website for rebates on smart thermostats and plugs. You can also find discounts on Amazon and manufacturer sites.

Smart ROI Calculator (Sample)
