

## Automation Sheet: Pre-built Routines for Alexa/Google/HomeKit

---

### **Alexa Routines**

1.  **Night Light Safety** – If fall detected between 10PM-6AM → turn on bedroom + hallway lights at 50% brightness.
  2.  **Voice Alert** – If fall detected → smart speaker says “Assistance is on the way.”
  3.  **Text Caregiver** – If fall detected → send push notification via Alexa app.
- 

### **Google Home Routines**

1.  **Emergency Broadcast** – Broadcast to all Google speakers: “A fall has been detected in the home.”
  2.  **Smart Light Trigger** – Turn on nearest smart light.
  3.  **Contact Notification** – Use IFTTT to send SMS to designated caregiver.
- 

### **HomeKit Automations**

1.  **Scene Activation** – Trigger “Emergency Scene” (lights on, door unlock, thermostat to 70°F).
  2.  **Push Notification** – Send alert to all connected iPhones/iPads.
  3.  **Visual Alert** – Flash all smart bulbs red for 10 seconds.
- 

**Tip for Use:** Keep this sheet near your smart hub or in your home safety binder for quick reference when updating or testing automations.
